

E-learning courses

Intuitive and inspiring e-learning courses for training, upskilling and onboarding of users. The courses can be supplemented with physical workshops that help the users master specific tasks in their own organisation.

-  **Talent development:** Ideal for training and upskilling existing users and onboarding new Standard Content editors.
-  **Interactive learning:** Built-in user interaction and mini tests that provide variation and reinforce learning.
-  **Directly in your LMS:** The material can be exported in SCORM format, which is easily embedded in your own LMS.
-  **Learning on your terms:** Access the learning material from any device, any time.
-  **Reference work:** The course material is designed to serve as a reference after completion. So users always have a reference on hand.
